The school has an appropriate policy for safeguarding which provides suitable arrangements to safeguard and promote the welfare of pupils at the school.

The school's safeguarding policy meets the requirements and is provided to parents on the school's website and is available from the school office. It has due regard to *Keeping Children Safe in Education* (KCSIE September 2019) and is appropriate for the specific needs of the school.

At the time of the visit, staff were due to have an update on KCSIE September 2019 the following week, to receive the most recent copy of Part 1 of the revised guidance, and relevant staff were due to be issued with Annex A. Staff were to be required to confirm they had received and read the documents, and steps were in place to ensure that staff understood them through checks at staff meetings. Planning for this training was documented, and staff confirmed they were expecting it to take place in a similar manner to the previous year. Whistleblowing and safe recruitment policies, and the staff code of conduct, meet current requirements and meet pupils' needs. Staff displayed good awareness of the safeguarding policy and related policies, advice and requirements.

The school's designated safeguarding lead (DSL) and the new proprietor have arrangements in place to undertake an annual audit of safeguarding procedures. The required specific training for the designated safeguarding lead (DSL) and deputy DSL is up to date and they are aware of local referral thresholds. Induction training for new staff includes the issue of all the required documents and recently appointed staff confirm they have received these along with specific associated training. In addition, staff have taken part in a range of additional training opportunities during the last school year, including a particular focus on children's mental health. Welfare concerns raised by staff are efficiently and accurately logged and dealt with effectively by the DSL and cases are reviewed.

The on-line safety of pupils is a high priority and recent guidance and training for staff and pupils indicates an appropriate focus on both the safeguarding and technological aspects of the use and misuse of digital media, and suitable filtering systems are in place.
